

Bharat Bhusan Dash
MERN Full Stack Developer
bharatdash432@gmail.com — 7008271238
<https://github.com/dashbharat>

Frontend Developer(MERN) with 3+ years of experience specializing in React.js applications, building scalable, responsive, and cross-browser compatible web applications using JavaScript (ES6+), TypeScript, HTML5, and CSS3. Skilled in developing reusable UI components, integrating REST APIs, and optimizing application performance using modern frontend best practices. Familiar with backend development using Node.js and Express.js, working with MongoDB for database management, and deploying applications on AWS. Experienced in Agile environments with strong problem-solving skills.

Technical Skills

- Languages: JavaScript (ES6+), HTML5, CSS3, TypeScript, Python
- Frameworks/Libraries: React.js (Hooks: useState, useEffect), Redux, jQuery
- Backend: Node.js, Express.js
- Database: MongoDB, MySQL
- Styling: Bootstrap, React-Bootstrap, Tailwind CSS, Responsive Design
- Tools & Platforms: Git, Figma, Postman
- API Handling: REST APIs
- Cloud: AWS

Work Experience

Frontend Developer

Growserve E-Solutions PVT LTD

May 2023 – Present

Project: Multi-Vendor E-commerce Admin Dashboard

Client: Reliance Retail (JioMart)

Description

- Developed a scalable admin dashboard to manage products, orders, and vendors, improving operational efficiency and user experience.

Responsibilities & Achievements

- Developed reusable and responsive UI components using React.js, Hooks, and TypeScript, improving development efficiency by 30%
- Managed complex application state using Redux with TypeScript, ensuring predictable and maintainable data flow
- Integrated REST APIs and collaborated with backend services built using Node.js and Express.js for product, order, and user workflows
- Built advanced features like search, filtering, and pagination for large datasets with efficient data handling from MongoDB
- Designed responsive and cross-browser compatible UI using Tailwind CSS and Bootstrap
- Optimized performance by minimizing re-renders and improving load time by 25% in TypeScript-based applications
- Assisted in backend integration and deployment processes, with exposure to AWS services for application hosting
- Collaborated in Agile teams using Git, improving development and deployment cycles

Frontend Developer Intern

Jan 2023 – Mar 2023

Milpros Private Limited

- Developed responsive and cross-browser compatible web pages using HTML5, CSS3, and JavaScript
- Built React.js components using Hooks for dynamic UI rendering
- Implemented responsive layouts using Bootstrap and Tailwind CSS
- Integrated REST APIs to fetch and display dynamic data
- Fixed UI bugs and improved application performance and usability
- Used Git for version control and team collaboration

Internship Project: Task Management Web App

- Developed task management application with CRUD functionality using React.js
- Built reusable UI components and responsive layouts
- Integrated REST APIs for real-time task update

Education

Master of Computer Applications (MCA)

Gandhi Institute for Education and Technology, Bhubaneswar, Odisha

Bachelor of Science (B.Sc.) – PCM

Fakir Mohan University, Balasore, Odisha

Languages

English, Hindi, Odia
